**Sewell vein**  
**Green Valley Coal Co.** (The old Lady H Mine) -- **Leivasy, WV**. Call 1-304-846-6600 for loading hours and prices. Sized coal for blacksmiths.  
The procedure is to have your vehicle weighed empty at the scales that are on the main road. (State route 20) You then go down to the processing plant and have your vehicle loaded. You can no longer load your own, since you are not allowed out of your vehicle. You then go back to the scales and get weighed again and pay by check (no cash). The price was \$60/ton.  
The processing plant is located about midway between Nettie and Quinwood on route 20. Nettie is on State route 39 between Richwood and Summersville. To get there from the south, Route 20 turns off of US60 at Charmco. The community where the plant is located is Carl, the company office is a Leivasy. There are a lot of local truckers in the area, the coal company may be able to arrange shipment. Ed Childers--posted 1/18/2002

**Sewell vein**

Sewell vein pea stoker size washed coal from Green Valley Mine at Leivasy, WV. Will sell in 50 lb. bags or bulk. My end loader bucket holds 400 lbs. I prefer not to make deliveries.

**Sewell vein**

**Groves Coal Yard -- White Sulphur Springs, WV. US Highway 60 E, 1-304-536-1373.**

**Sewell vein and others**

I have been a satisfied customer of Groves Coal Yard in White Sulphur Springs, WV. for over 25 Years. They are located across the street from Food Lion at the Battle Ground Mall. I have recommended it to a lot of folks over the years. John Groves, the owner, will tell you upon inquiry (phone) if he has his best grade of smithing coal in stock.--Paul Lacy, posted 1/18/2002
